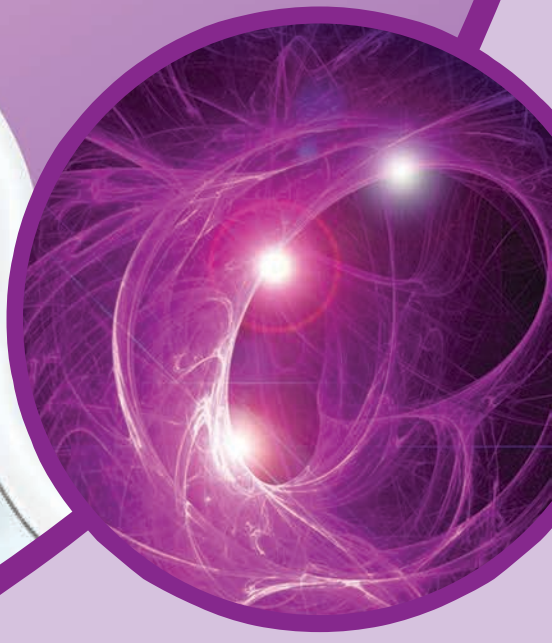
Ideal for:

- Home
- Office
- Clinic
- Waiting rooms
- Conference Halls
- Hospitals
- Airports



Quantumfield Inducer

The QiFi "Purifier" is described by those who have experienced it as inducing an immediate, profound sense of euphoria, peace, calm, neutrality, and blissful connectedness.

Made in Vermont

EMF Cancelling

Enhanced EMF Cancelling Technology for a healthier and more harmonious environment with which to live and work in.

Scalar Technology

The QiFi Purifier represents a revolution in crystal tuning and scalar technology designed to create wellbeing through the fine tuning of the Quantumfield. The QiFi has 6 pre-programmed settings built-in, and the ability to fine tune and dial in a variety of scalarwave outputs. This scalar effect, through crystal technology, induces a profound sense of wellbeing and neutrality.

Programmed for Neutrality

There are 6 fixed settings on the QiFi which include: Unwind, Quantum, Activate, Unity, Cohere, and Wave.Each setting can be fine tuned with the dial on the left, which works to increase or decrease the choice of setting that is determined by the dial on the right. 4 violet diodes in the center blink, pulse or radiate according to the setting chosen.
