Inflammation
Circulation
Arthritis
Relaxation of Tissue

FDA CE HEALTH CANADA TGA

Revolutionary Laser

Easily unwind pain injuries, stress and dis ease with advanced cold laser technology. Never before has a revolutionary laser been designed to dissolve cellular memory and induce Stillpoint Response

Unique Approach

Our unique approach combines the use of numerous wavelengths, violet lasers, advanced digital processing technology, custom programmability and our patented ScalarWave technology to dissolve cellular memory

ScalarWave Technology

By digitally inducing subtle scalar waves within the laser light, the ScalarLaser relaxes, unwinds and clears cellular memory. This makes the ScalarLaser a subtle healing instrument appreciated around the planet

Affordable Over the Counter

The ScalarLaser is the most affordable laser with advanced technological features. It is cleared by FDA, Health Canada, CE and TGA and hand made and fine tuned in the State of Vermont in an approved ISO1345 medical manufacturing facility

A Gift From Stillpoint

All of our products induce a subtle unwinding or Stillpoint Response. Stillpoint is the neutral state that dissolves cell memory and induces yogic wellness
